

# Make Every Delivery Exceptional

Faster deliveries. Smarter savings.  
Happy customers

Consumer expectations for fast, free deliveries have never been higher. And now, you can meet them all with ease. Built on top of the largest, most trusted commerce network, Rithum's Delivery Solutions provide the data analytics and visibility you need to optimise deliveries. It means a better experience for your customers, and lower costs for you.

## Deliver faster. Ship smarter. Win loyalty

With the comprehensive breadth of Rithum's Delivery Solutions, you can be confident every order is delivered swiftly and accurately.

- Fast deliveries. Every delivery date is a promise — one Rithum helps you keep through intelligent routing, efficient rates and real-time updates.
- Intelligent shipping. We use dynamic data models to source the right carriers with the smartest routes, at the best price for you.
- Accurate tracking. With sophisticated warehouse processing and real-time transit tracking, both you and your consumers will always know where an order is at any moment.

## Make your promises profitable

You need to package each order in the right box, at the right warehouse and with the optimal carrier method. Rithum helps you:

- Lower shipping costs with automatic rate shopping to select the best carrier based on delivery date and price.
- Increase conversions with precise delivery promises based on warehouse processing and transit times.
- Support suppliers with passthrough shipping labels that let them use your most cost-effective carrier without an integration.

## Keep customers coming back for more

The right e-commerce delivery solution can transform first-time buyers into lifelong customers. Rithum lets you:

- Create branded tracking pages to share delivery details
- Proactively send delivery updates via email or SMS
- Spot trends and rapidly resolve issues with real-time reporting
